Roof Mounted Vertical  
Discharge Centrifugal Fan

# HERITAGE SCHAT

## Product Overview

**The Heritage SCHAT is a range of roof mounted centrifugal fans which is designed to handle clean, grease laden or contaminated air, whilst providing easy access for cleaning.**

### Casing

The all metal cowls shall provide a long lasting and robust construction, manufactured from pressed galvanised sheet steel and powder coated after forming.

The wind band shall incorporate toggle clamps to provide easy access for cleaning and maintenance. All SCHAT units can be mounted at angles up to 15°.

### Impeller

Aerodynamically designed backward curved centrifugal impellers constructed in aluminium or galvanised sheet steel. Impellers are balanced to ISO 14694 Grade G6.3.

### Motors

Motors are to be foot mounted totally enclosed metric type to IP55, with sealed for life bearings, standard industrial paint finish and Class F insulation to EN 60034-5, suitable for operating temperatures up to +50°C.

Motors are to be wired via a weatherproofed cable to an IP55 protected terminal box.

### Quality Management

Units are to be designed and manufactured with procedures as defined in BS EN ISO 9001:2008. All SCHAT units are to be tested to ISO 5801:2007 (airside performance) and BS 848 Part 2:1985 (sound performance).

### Typical Applications

- Industrial
- Commercial Kitchens and Catering
- Hospitals
- Bakeries
- Forges and Foundries
