

MULTIFLOW SMB

Mixed Flow Box Fan

MULTIFLOW SMB

Product Overview

- 6 standard sizes from 400mm to 700mm
- Air volume flow rates up to 4.07 m³/s
- Static pressures up to 796 Pa
- Suitable for operating temperatures up to +60°C
- Available in **AC**

The unique and new blade geometry in this square, duct mounted, mixed flow fan offers increased airflow with smaller diameters.

Easy Installation

Lightweight construction with Ductmate flanges allowing easy installation.

Efficient Performance

High volume flow rates, high efficiency, low acoustic emissions due to special three-dimensional blade geometry with diagonal air discharge, reduced rotational tone.

Controllability

A range of transformer voltage controllers can be used to provide five speed step control of single phase or three phase motors.

Energy saving

Backward-curved, aerofoil section blades provide high volume flow rates and high efficiencies.

Warranty

Each SMB has a 12 month warranty.

Construction

Manufactured using pre-galvanised sheet steel suitably stiffened. Casings incorporate Ductmate flange connections at each end. Motor supports are constructed from steel sheet, hot-dip galvanised to BS EN ISO 1461:2009 after manufacture and have an aerodynamic profile.

Motor

The motor contains sealed for life bearings and have a Thermal Class of to THCL 130 or 155 dependent on size. All motors are suitable for use in ambient air conditions up to +60°C.

Impeller

Made from high-performance composite material with 7 backward-curved, aerofoil section blades.

Typical Applications

- Kitchen Canopies
- Restaurants
- Lift Motor Rooms
- General HVAC installations

Data provided is at standard air density of 1.2 kg/m³.

Data in accordance with ErP 1253/2014 of the European Parliament. Product category is NRVU. Measurement category used to determine energy efficiency: D.

Peak Amps @ 230V / 1PH / 50Hz.

The overall A-weighted sound pressure level is at a distance of 3m with spherical free-field propagation. It is expressed in dB re-20μPa and is presented for comparative purposes only.

063-0700-MFB	700	700	770	11	735	5.8

Dimensions are in mm.

TRANSFORMER CONTROLLER

Accessories

- IP40 enclosure
- Five speed stepped control
- Illuminated on/off switch (single phase units only)
- Fitted Motor Protection type D MCB (single phase units only)
- Suitable for operating temperatures up to 40°C
- Ideal for environments where noise is a primary consideration as these controls do not create magnetic hum associated with some step-less forms of speed control

Features & Benefits

A range of transformer voltage controllers used to provide five speed step control of single phase or three phase motors where the peak current of the motor does not exceed the rating of the controller. Speed control is via selector switch. Single phase units are complete with illuminated on/off switch.

Single Phase 220V to 240V / 50Hz

Product Code	Max Peak Current Amps	Weight kg	IP Rating
149-TC14	4	4	IP40
149-TC110	10	7	IP40

Three Phase 380V to 415V / 50Hz

Product Code	Max Peak Current Amps	Weight kg	IP Rating
149-TC33	3	12	IP40
149-TC310	10	25	IP40
